Avoid Danger

When you are sick, or suffering from any of the troubles peculiar to women, don't delay—take Cardui, that well-known and successful remedy for women. Thousands of women have used Cardui and been benefited. Why not you? Don't take any chances. Get Cardui, the old, reliable, oft-tried remedy, for women of all ages.

It Will Help You

Mrs. Inzania Morgan, Sneedville, Tenn., writes: For ten years I suffered with the turn of life, and tried many remedies without relief. I had pains all over my body and at times I could not sit up. At last I took Cardni and now I can do my housework. I have told many ladies about Cardui and recommend it to all sick women." Try it.

WEDNESDAY EVENING, MAY 5, 1909.

THE "SYNDICALIST" MOVE-MENT.

Premier Clemencean has apparently taken the bit in his teeth and has decided to test the power of the French government to put down the present "ayndicalist" move, so far as it affects state employes, even if this involves the precipitation of the threatened general strike. Dangerous signs are manifest throughout the country, and foreign as well as French observers are of the opinion that the belated determination of the government to vindicate its authority comes none too soon.

The recent gigantic strides of "syndicallem" and its arrogant attitude under the leadership of the general federation of laber, with which the various classes of states employes now insists upon affiliating, menacing a general strike have created something ap proaching a public panic. Judging by recently voted by provincial councils, the property interests of the country will unitedly support any measures the government may take, no matter how rigorous, which would end the intolerable

The attitude of the Combes and other previous radical governments, which en-couraged state servants to form unions, even in the navy yards, and the records of MM. Barthou and Viviani, respectively ministers of public works and labor have heretofore embarrassed M. Clemenceau, but since the visit of King Ed-ward, who, it is understood, let the premier see the anxiety existing abroad that France was drifting into a condition approaching anarchy, M. Clemencean resolved to act.

Kept His Word.

A young fellow in Havana who occupied the position of a reporter fell in love with a girl, the daughter of a wealthy planter. He applied to her father in the orthodox way for his consent to the marriage.

"Presumptnous!" said the father with eyes flashing. "You, a poverty stricken journalist, and my daughter Sir, get out of my presence!"

The journalist was very angry. It brought forth a heated declaration of

"Your daughter is too good for me you say? I will marry a princess be fore I die." And, with head erect, he left the irate father.

The journalist went to Spain. He wrote poems. The poems were read by the Princess Josephine. There was a meeting. The two fell in love with each other. It is said the journalist was so sincere in his affection that probably he forgot his declaration to the Havana planter. They were both royally happy, eloped, married in Val ladolid and were eventually pardoned by Queen Isabella, the one time jour nalist being received with all the respect due to his new and high rank.

When Ladies Wore Masks.

In the seventeenth century ladies wore masks in public, and great was the variety of face screens that wer seen. Ladies who had "coralline" lipe preferred short masks, as was natural For others who wished to hide the lower part of the face the mask was which afterward passed under the chin and over the ears. In 1632 a nev mask called the mimi, from the Italian mimics, was all the rage and threatened to usurp the place of the black one. It was even the cause of violent quarrels between the ladies who held to the latter and those who years later it became the fashion to trim the upper part of the mask with ruche of lace, to lengthen it with a peard of the same material and ever to cover it more or less with lace to the borders of the eyeholes. Young ladies of this period, however, fre quently contented themselves with cov-ering the face simply with a piece of black crape for coquetry's sake and to appear the fairer.

The Rack, Pace and Amble. The rack is a gait of the horse be-tween a trot and a gallop or canter, in which the fore feet move as in a slow gallop, while the hind feet move as in a trot or pace. It is usually an artificial gait, but is sometimes hereditar; or natural. There is much confusion of terms in respect to this gait, due to the fact that the gait itself is somewhat varied, according as the racker carries the one or the other fore foot foremest in the galloping motion of the fore feet; that many confound the rack with the pace, the words often being used synonymously, and that many have mistaken the use of the words "pace" and "amble." There is abundant evidence that the American pace of today is the amble of Eu ropeans of the last century and earlier. The motion of the hind feet is the same in the trot, the pace and the rack. In the trot the diagonal hind and fore feet move nearly simulta neously. In the pace or amble the move nearly simultaneously.-Boston
